"Start Programming"
Lesson

October 2022
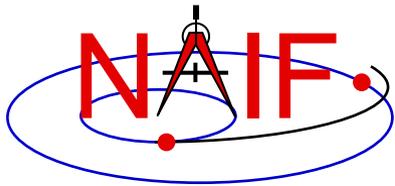

- **The lesson provides language specific versions of a simple program to retrieve the Toolkit version string then output the string.**
  - The lesson presents the example program coded in:
    - » **FORTRAN - SPICELIB**
    - » **C - CSPICE**
    - » **IDL - Icy**
    - » **MATLAB – Mice**
    - » **Python – SpiceyPy**

- **Note, this lesson does not describe the use of all NAIF supported compilers or platforms.**
